Diskette Instructions

Services Descriptions

Installation Instructions
ONA Services User Guide Diskettes

ONA Service Descriptions

The following notes are intended to help users install the <u>ONA Service Description</u> information from the diskettes to a hard disk.

The following steps should be performed, <u>in order</u>, to successfully install the region information. To complete these steps, type at the DOS prompt, the **exact** verbiage that is type in the outlined steps below. For ease of documentation, "a:\" is used as the floppy disk drive and "c:\" is used as the hard disk drive. These drive designations may or may not be correct for your machine. If not, type the correct drive designation letter of your configuration on the installation steps, rather than the letters used below.

Region: _____ **All** _____

Approximate <u>megabytes</u> of hard disk space required: ___ **5** ___

Installation Command Sequence beginning at the "c:" prompt (command string in bold type):

1. **md gtelibr**
2. Insert diskette 1 into floppy disk drive and type **a:** <enter>
3. **copy *.* c:\gtelibr** <enter>
4. Remove diskette 1 from floppy disk drive and insert diskette 2
5. **copy *.* c:\gtelibr** <enter>
6. **c:** <enter>
7. **cd gtelibr** <enter>
8. **pkunzip *.zip** <enter>
9. **erase *.zip** <enter>

   To run the application
10. **gtelibr** <enter>

Key for DOS commands:

<enter> = enter/return key to be pressed after each command line is entered
md = make directory
copy = copy a file(s)
cd = change directory
pkunzip = runs program to uncompress files
erase = erases an unnecessary file from the disk

Diskette Instructions

Tariff References

Tariff Reporting - California Region - Instructions

These instructions are intended to guide the end-user through the process of installing the viewing application for the California region of the Tariff information. Please follow the instructions step-by-step to install the application properly. The process is a building block process, therefore each step needs to be completed in the correct order, to install everything properly.

At the DOS prompt, type the following lines: *Note: this assumes that the drive that you are installing the program to is C, and the floppy drive you are installing the program from is A. Please change the drive letters when necessary to install it to the drives you wish.*

> **c:**
>
> **md Tarview**
> > **(This makes a directory on the hard drive named Tarview)**
>
> **cd Tarview**
> > **(changes directory to Tarview)**

> **Florida.exe**
> > **(This runs the viewing application)**

Following Installation you should have the following files in the new directory \Wc_Fl:

> Foxd2600.eso
> Foxd2600.esl
> Foxdx260.esl
> Flrptdrv.dbf
> Flrptdrv.cdx
> Flrptdrv.fpt
> Florida.exe

ONA Product Reporting - Hawaii Region - Instructions

These instructions are intended to guide the end-user through the process of installing the viewing application for the Hawaii region of ONA Products. Please follow the instructions step-by-step to install the application properly. The process is a building block process, therefore each step needs to be completed in the correct order, to install everything properly.

At the DOS prompt, type the following lines: *Note: this assumes that the drive that you are installing the program to is C, and the floppy drive you are installing the program from is A. Please change the drive letters when necessary to install it to the drives you wish.*

      c:

      md Wc_Hi
            (This makes a directory on the hard drive named Wc_Hi)

      (Insert First installation disk)

      a:

      pkunzip hiinstal.zip C:\Wc_Hi
            (Follow instructions that appear on the screen)

      Hawaii.exe
            (This runs the viewing application)

Following Installation you should have the following files in the new directory \Wc_Hi:

      Foxd2600.eso
      Foxd2600.esl
      Foxdx260.esl
      Hirptdrv.dbf
      Hirptdrv.cdx
      Hirptdrv.fpt
      Hawaii.exe

ONA Product Reporting - Midwest Region - Instructions

These instructions are intended to guide the end-user through the process of installing the viewing application for the Midwest region of ONA Products. Please follow the instructions step-by-step to install the application properly. The process is a building block process, therefore each step needs to be completed in the correct order, to install everything properly.

At the DOS prompt, type the following lines: *Note: this assumes that the drive that you are installing the program to is C, and the floppy drive you are installing the program from is A. Please change the drive letters when necessary to install it to the drives you wish.*

> **c:**
>

> > **(This runs the viewing application)**

Following Installation you should have the following files in the new directory \Wc_Mw:

> Foxd2600.eso
> Foxd2600.esl
> Foxdx260.esl
> Mwrptdrv.dbf
> Mwrptdrv.cdx
> Mwrptdrv.fpt
> Midwest.exe

ONA Product Reporting - Northeast Region - Instructions

These instructions are intended to guide the end-user through the process of installing the viewing application for the Northeast region of ONA Products. Please follow the instructions step-by-step to install the application properly. The process is a building block process, therefore each step needs to be completed in the correct order, to install everything properly.

At the DOS prompt, type the following lines: *Note: this assumes that the drive that you are installing the program to is C, and the floppy drive you are installing the program from is A. Please change the drive letters when necessary to install it to the drives you wish.*

      c:

      md Wc_Ne
             (This makes a directory on the hard drive named Wc_Ne)

      (Insert First installation disk)

      a:

      pkunzip neinstal.zip C:\Wc_Ne
             (Follow instructions that appear on the screen)

      Northeas.exe
             (This runs the viewing application)

Following Installation you should have the following files in the new directory \Wc_Ne:

      Foxd2600.eso
      Foxd2600.esl
      Foxdx260.esl
      Nerptdrv.dbf
      Nerptdrv.cdx
      Nerptdrv.fpt
      Northeas.exe

ONA Product Reporting - North Region - Instructions

These instructions are intended to guide the end-user through the process of installing the viewing application for the North region of ONA Products. Please follow the instructions step-by-step to install the application properly. The process is a building block process, therefore each step needs to be completed in the correct order, to install everything properly.

At the DOS prompt, type the following lines: *Note: this assumes that the drive that you are installing the program to is C, and the floppy drive you are installing the program from is A. Please change the drive letters when necessary to install it to the drives you wish.*

> **c:**
>

> Foxd2600.eso
> Foxd2600.esl
> Foxdx260.esl
> Norptdrv.dbf
> Norptdrv.cdx
> Norptdrv.fpt
> North.exe

ONA Product Reporting - Northwest Region - Instructions

These instructions are intended to guide the end-user through the process of installing the viewing application for the Northwest region of ONA Products. Please follow the instructions step-by-step to install the application properly. The process is a building block process, therefore each step needs to be completed in the correct order, to install everything properly.

At the DOS prompt, type the following lines: *Note: this assumes that the drive that you are installing the program to is C, and the floppy drive you are installing the program from is A. Please change the drive letters when necessary to install it to the drives you wish.*

> **c:**
>
> **md Wc_Nw**
> > **(This makes a directory on the hard drive named Wc_Nw)**
>
> **(Insert First installation disk)**
>
> **a:**
>
> **pkunzip nwinstal.zip C:\Wc_Nw**
> > **(Follow instructions that appear on the screen)**
>
> **Northwes.exe**
> > **(This runs the viewing application)**

Following Installation you should have the following files in the new directory \Wc_Nw:

> Foxd2600.eso
> Foxd2600.esl
> Foxdx260.esl
> Nwrptdrv.dbf
> Nwrptdrv.cdx
> Nwrptdrv.fpt
> Northwes.exe
